VelaShape™

Your Body

cellulite treatment &
circumferential reduction*

elōs™ technology

VelaShape™

treat yourself to a smoother, sexier figure!

VelaShape contours, shapes and slims the body by improving cellulite and reducing circumference in as few as 4 treatment sessions. VelaShape is cleared by the FDA and provides dramatic results without downtime or significant discomfort.

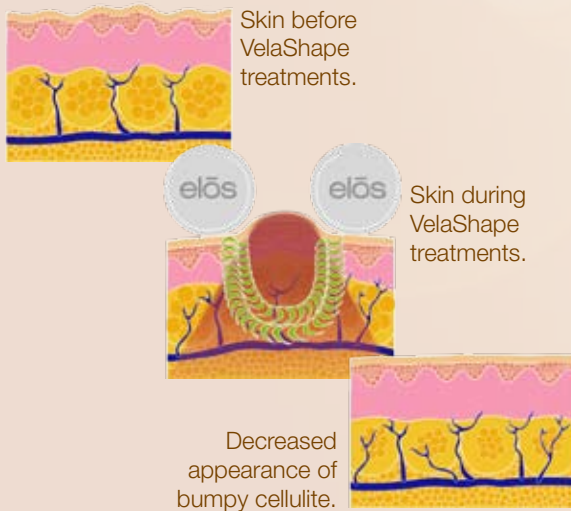

The secret behind VelaShape is that is the first and only technology that combines elōs with vacuum and tissue manipulation to reduce the volume and appearance of fat tissues.

VelaShape treatments

Dual applicators treat multiple areas of the body, such as the abdomen, buttocks, thighs and arms.

Decrease the appearance of stubborn and resistant cellulite.

Result in an average circumferential reduction of 0.5 - 3 inches.

How quickly will I notice a change?

Gradual improvement of the treated area can be seen following the first treatment – with the skin surface of the treated area feeling smoother, firmer and tighter. Results in circumference reduction is seen from the first to second session and cellulite improvement is noticed in as few as 4 sessions.

How many inches can I reduce from my circumference?

In clinical studies, patients report an average reduction of 1 inch post treatment. In clinical trials, the average range of circumferential reduction was 0.5 - 3 inches.

Is treatment safe?

Treatment is safe and effective for all skin types and colors. There are no reported short- or long-term health effects.

Does it hurt?

Most patients find VelaShape comfortable – like a warm deep tissue massage. The treatment is designed to accommodate your sensitivity and comfort level. It is normal to experience a warm sensation for a few hours post treatment. Your skin may also appear red for several hours.

Are results permanent?

Following your complete treatment regimen, it is recommended to get maintenance treatments periodically. Like all non-surgical or surgical techniques, results will last longer if you follow a balanced diet and exercise regularly.
